

Publication Information

2nd International Symposium on Frontiers in Materials Science

November 19-21, 2015, Waseda University, Tokyo, Japan

Both oral and poster presenters in this symposium are strongly encouraged to submit their manuscripts to the Publication Committee (PC) of the symposium.

Selected manuscripts by PC will be recommended to submit the manuscripts to the special topic section of Journal of Applied Physics, which will be reviewed according to the standard of its journal policies. It is noted that only “original” papers, which contain significant progress in applied physics, will be selected for the above special topic section. Review articles will not be recommended for it.

Non-selected manuscripts will be reviewed by anonymous reviewers assigned by PC. Once papers are accepted, they will be published in a special volume of the AIP Conference Proceedings Series.

Detailed instructions on the preparation of manuscripts for submission will be available on the symposium home page.

Important dates:

Manuscript submission page on the website open: **November 15, 2015**

Manuscript submission page on the website close: **December 15, 2015**

Submission of selected papers to Journal of Applied Physics (close): **January 15, 2016**

These deadlines will be strict. Post-deadline manuscripts will not be received.
